

Getting the 2023-2024 COVID-19 Vaccine

All types of COVID-19 vaccines are safe and effective. None of the COVID-19 vaccine brands are preferred over another.

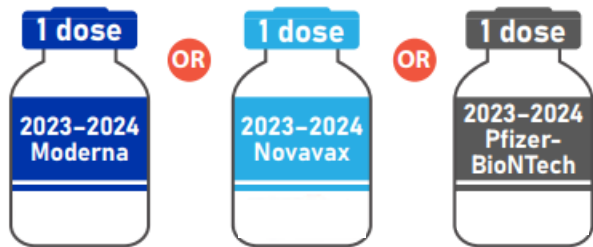

Everyone 6 months and older should get at least one dose of the 2023-2024 COVID-19 vaccine. *

CHILDREN 5-11 YEARS CAN GET MODERNA OR PFIZER:

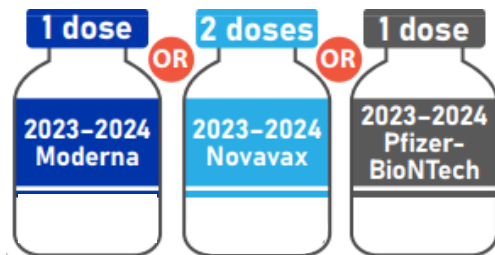

INDIVIDUALS 12 YEARS AND OLDER CAN GET PFIZER, MODERNA, OR NOVAVAX:

If you had a COVID-19 shot in the past, you can get:

If you have not gotten a COVID-19 shot in the past, you can get:

* **Doses and timing of doses are different for those who are:** 65 years and older, moderately or severely immunocompromised (weakened immune system), and between 6 months and 4 years old. **Talk to your health care provider for more details.**

To find a vaccination site, scan the QR code or visit [vaccines.gov](https://www.vaccines.gov).
