

# New Jersey Resident Deaths by Year, Month, and County of Residence 2018-2021 Final Data 2022-2023 Provisional Data

## Caveats for 2022 - 2023 Death Counts Presented In This Document

**Provisional** means "temporary." These counts will change.

The "as of" dates on the graph and 2022-2023 tables show when those data files were last updated.

The 2022-2023 counts in this document will be updated once a month.

Annual death data files are finalized about 15 months after the end of the data year. (*i.e., spring 2024 for 2022 deaths*)

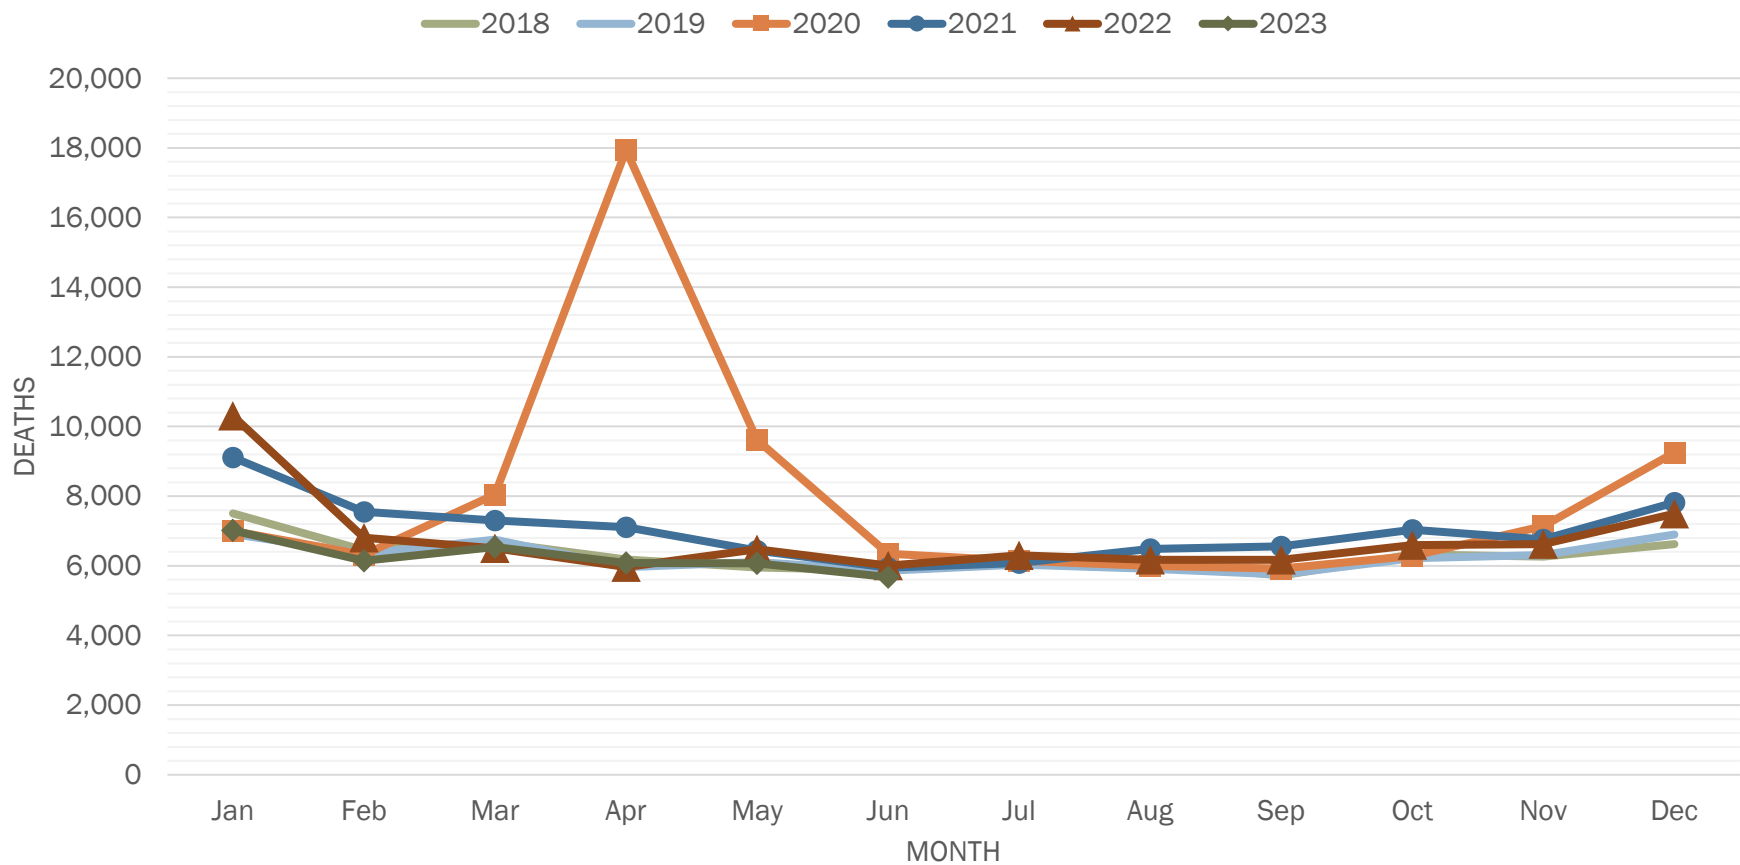

The purpose of this document is to show the effect of COVID-19 on monthly all-cause death counts for each New Jersey county and to compare those counts to monthly counts from previous years.
