

# THC: HOW MUCH ARE YOU BUYING?

## SOME EXAMPLES OF ONLINE PRODUCTS

### PURPOSE

Recreational cannabis now available in New Jersey, many dispensaries are offering their catalog of products online. The purpose for this is to make the public aware the amount of THC and/or CBD that are in a product being sold.

### POTENCY

THC percentage refers to the amount of THC cannabis contained by its dry weight. Percentages directly correlate to milligrams per gram.

THC percentage is often regarded as the potency or strength of a cannabis strain.

### OBSERVATION

If you visit any of the dispensaries website, you can visibly see the amount of THC and/or CBD that is in a product. For example, when you look are some of the products by Curaleaf, you can see the posted THC percentage they offer. The amount of THC ranges from:

- o 15-30% in a flower
- o 70-90% in a vaporizer
- o 100mg total for a pack of edibles.
